
COVID Update

As per the latest Chief Health Officer (CHO) directions released on 18 November, please be aware that everyone aged 12 years two months and above is required to be fully vaccinated against COVID-19 to attend or be involved with a lifesaving service, program or facility, unless as authorised exemption applies.

From an LSV perspective this means that any member aged 12 years two months and above must be fully vaccinated to participate in nippers and sport programs. We understand this update has come at short notice from the CHO, and that some who have recently turned 12 may not yet be fully vaccinated against COVID-19. If this includes you or your child, please reach out, and we will support you in being involved as soon the vaccination requirements are met.

For further information, please refer to the recently updated [LSV COVID-19 vaccination FAQ](#) document.

Members must record and verify vaccination status by completing the <https://vacstatus.lsv.com.au/>, and Checking In onsite at the Clubrooms using the Service Victoria App (QR code). Completing both processes will be required to attend all LSV and club facilities, engage in service delivery or participate in face to face activities.

Thank you for your continued support as we navigate these changing circumstances together, to ensure lifesaving continues to fully abide by all requirements set out in the public health orders, to keep our members and community safe.

We look forward to the season ahead.
